ARTISTS & TRACK INFO:

★ **FFF** (Rotterdam, The Netherlands) is known for his unique brand of productions, and for throwing many legendary parties in Rotterdam for years. He has released on Sonic Belligeranza, Hong Kong Violence, Sprengstoff, Clash Records, kool.POP and more. For KETA001 he made "Naughty Jungle Of Love", a dirty noisy speedbreakcore track, finished with a hint of disco, which has proven itself on the dancefloor on many occasions.

★ **HEADACHE** (Tuusula, Finland) has his debut release on KETA001. He is a talented producer of various styles like drum 'n' bass and gabber and everything else that comes up in his head. His "Gangsta" track on this record is a fresh fusion of speedcore and insane breakbeats, with a lovely breakdown.

★ **CAPSLOCK** (Hillegom, The Netherlands) is the co-owner of Ketacore records. Known for his livesets, it was the logical step to get some of his work on vinyl. Blending industrial, hardcore and breakcore into "Ketacore", his track for this record is dark, yet with a wink.

★ **B.SLAVE** (Huizen, The Netherlands) has his roots in the speedcore genre, but now focuses more on the broken core, and more abstract industrial sounds. He contributes to the first Ketacore with a brutal industrial hardcore track: "Ketamientje".

★ **TOCSIN** (New Jersey, USA) is a rare collective of three hardcore producers from the States. They have released on Apocalypse, Bastard Loud, Industrial Strength and more. They complete this record with "Inoculated", a filthy speedcore track.
